Common Questions:

1. Can I set up and run this application on a Microsoft Virtual Server? Yes, Virtual Server 2005, R2 is used for Server 2003 and Server 2008.

<http://www.microsoft.com/windowsserversystem/virtualserver/>
<http://technet.microsoft.com/en-us/cc949734.aspx>
<http://technet.microsoft.com/en-us/cc949735.aspx>

Virtual Server - Microsoft assessment and planning toolkit for Server 2008:

http://technet.microsoft.com/en-us/library/bb977556.aspx?SA_CE=VIR-MAP-WEBS-MSCOMVIRTSVR-2008-03-06

2. Can we use **Microsoft Remote desktop** as our **VPN Connection**? Yes, it can be configured many different ways.

ITG's Standard VPN is  – web-based remote support without pre-installed Software.

Other VPN's connections ITG supports:

- Microsoft Remote Desktop + PCAnywhere
- Cisco VPN + Microsoft Remote Desktop
- Sonicwall Global VPN + Microsoft Remote Desktop
- Citrix
- Nortel Networks Contivity VPN Client
- f5 Networks

** In most cases, ITG can install a "run time version" (using SQP Express) of the Advantage Pro Web software. This eliminates your Company's need to license a copy of Microsoft's SQL Server 2005 Software.*

* **ASP.NET** (Active Server Pages) is a web application framework by Microsoft which allows programmers to build dynamic web sites, web applications and web services. ASP.NET is built on the Common Language Runtime (CLR), allowing programmers to write ASP.NET code using any supported .NET language. <http://search.microsoft.com/results.aspx?mkt=en-US&setlang=en-US&q=ASP>

** **Internet Information Services (IIS)** - formerly called **Internet Information Server** - is a set of Internet-based services for servers created by Microsoft for use with Microsoft Windows. <http://www.microsoft.com/WindowsServer2003/iis/default.aspx>
